The U.S. Department of Housing and Urban Development requires all entitlement communities to create Consolidated Plans and to update them every five (5) years. The FY18 Action Plan will serve as the annual document that will articulate the means by which the goals and objectives of the Consolidated Plan are being met and responded to during the coming fiscal year. This particular Action Plan will represent the second of five such annual plans being produced in response to the current Consolidated Plan.

If you are interested in submitting a proposal for consideration, you must complete the attached application form that will be made available online at <http://www.newbedford-ma.gov/community-development/> and submit it with all required materials by **Friday, February 9, 2018 at 12:00 PM** to the following location:

The City of New Bedford's CDBG Program is designed to expand opportunities for low and moderate-income citizens through the provision of public services, acquisition and improvements to public facilities, neighborhood improvements, housing, and economic development opportunities.

Funding for the FY 2018 Program year available under the CDBG Program is estimated¹ to be in the amount of **\$2,425,530**.

III. ELIGIBILITY & SELECTION

The city will evaluate all CDBG proposals in a three-phase process:

1. The first phase will involve a review of the proposals by the staff of the DPHCD for conformance to the submission requirements and a determination of whether the proposals meet the minimum criteria established in this RFP. Each proposal will be reviewed for program eligibility under the regulations of the CDBG Program, and feasibility for implementation.
2. The second phase will involve an evaluation of the proposal merits by the staff of the DPHCD. During this phase, and at its discretion, city staff may conduct interviews with qualifying applicants and provide the applicant the opportunity to clarify their proposal and advise the city of any additional factors, which may be relevant.
3. The final phase will be a review of the applications and recommendations of the DPHCD by the Mayor's Review Committee.

ELIGIBLE ACTIVITIES

Before preparing a request for funding, first determine whether or not the proposed activity or project is an eligible activity per federal regulations. The applicable CDBG regulations are located in these RFP instructions. This listing defines eligible and ineligible activities for the respective programs. If the proposal does not meet at least one of the three national objectives for CDBG funding, or is determined to be ineligible under other applicable CDBG regulations, the project cannot be considered for funding.

NATIONAL OBJECTIVES (FOR CDBG APPLICATIONS)

The **primary objective** of the CDBG program is to benefit low and moderate-income persons who earn at or below 80% of the median income and/or reside in census tracts with at least 51% low and moderate-income levels. Priority will be given to those applications that meet national objective #1 as stated below. Without exception, all CDBG program activities must meet one of the program National Objectives listed below:

1. **National Objective 1:** Principally benefits low and moderate-income persons who earn at or below 80% of the median income (Code of Federal Regulation citation 570.208(a).)
2. **National Objective 2:** Aids in the prevention or elimination of slums or blight (Code of Federal Regulation citation 570.208(b).)
3. **National Objective 3:** Qualifies as a certified urgent need (Code of Federal Regulation citation 570.208(c).)

Section 570.208 of the Code of Federal Regulations lists the criteria to determine whether a CDBG - assisted activity complies with the national objectives stated above.

SELECTION: RANKING CRITERIA FOR FUNDING PROPOSALS

Emphasis will be placed on applicants who meet or exceed the standards discussed in this section. For those providers who are proposing new or expanded programs, emphasis will additionally focus on capacity and exemplary past performance.

Staff will utilize the following criteria, in addition to HUD eligibility requirements and the city's Consolidated Plan priorities, in evaluating proposals submitted for CDBG funding:

A. IMPACT ON CONSOLIDATED PLAN PRIORITY NEEDS

The need for the proposed project will be determined by identifying how the project impacts upon the adopted Consolidated Plan Priority Needs. Therefore, applications must provide a clear explanation of how the project impacts upon Consolidated Plan Priority Needs. Greater consideration will be given to projects that provide a clear description of the project with supporting data and methodology of how the project will meet the Plan's Priority Needs.

B. BENEFIT TO LOW AND MODERATE INCOME PERSONS

The primary objective of the CDBG program is the development of healthy communities "by providing decent housing and a suitable living environment and expanding economic opportunities principally for persons of low and moderate-income." HUD requires that, at a minimum, **70%** of the CDBG money be used for activities that benefit lower income people.

Projects are required to benefit low and moderate-income (LMI) persons and must be designed to include participation by such persons. A CDBG - assisted activity "benefits lower income people" if it meets any one of the four following tests:

1. The **Housing Benefit Test** for measuring lower income benefit.
 - Housing-related CDBG activities "benefit" lower income people only if occupied by low and moderate-income individuals and families.
 - In multifamily buildings (3 or more units), at least 51% of the units must be occupied by low and moderate-income individuals and families.
2. The **Job Creation or Retention Test** for measuring lower income benefit. The business receiving CDBG assistance must justify that the assistance will benefit low and moderate-income individuals. There are two possible ways it can meet this claim:
 - At least 51% of the jobs created or "retained" by the business as a result of the CDBG assistance must be either filled by or "available to" low and moderate income individuals. Jobs are to be counted on a full-time-equivalent basis.
 - "Available to" means either: the job does not require special skills or additional education; or, the business agrees to hire someone and train them for the job. In addition, the business and city must try to ensure that low and moderate-income persons get first consideration for filling the job.

3. The **Limited Clientele Test** for measuring lower income benefit. Some CDBG - assisted activities are either facilities or services that, by their special nature, serve people who might frequently be lower income people. Examples include shelters for abused spouses, or senior citizen centers. HUD calls these "limited clientele activities". To determine whether one of these activities principally benefits lower income people, one of the following tests must be met:
 - Only lower income people are allowed to use the facility or service.
 - The activity requires users to provide information about their family income and size, and at least 51% of the users are lower income.
 - The activity is one that HUD "presumes" that 51% of the users are lower income. For example, HUD "presumes" elderly, handicapped, and illiterate people - among others - are lower income.
4. The **Area Benefit Test** for measuring lower income benefit. Many CDBG activities can benefit all people in an area, no matter what their income is. Examples include: street improvements, neighborhood facilities, and fixing the fronts of stores in neighborhood commercial districts. Such projects must meet the "area benefit test" if they are to be counted as benefiting lower income people. To meet this test, at least 51% of the residents of the "area" must be lower income.

In all cases, all applications scored under the low and moderate-income criterion will include review and scoring of the following:

- LMI benefit activity selected
- How LMI persons will be determined
- The absolute number of persons to be served
- The percent of qualifying LMI persons to be served
- How the low and moderate-income persons will benefit

For the purpose of evaluating project applications, 51% of beneficiaries must be low and moderate-income.

Projects that cannot demonstrate 51% LMI benefit will not be funded.

C. PROJECT DESCRIPTION, PERFORMANCE EVALUATION CRITERIA & BUDGET

The content and soundness of all applicants' project design will be evaluated. This evaluation shall include a review of proposed project activities set forth in the narrative and the budget to support these activities.

Several factors will be considered when reviewing a project's budget. All budget reviews will include, but not be limited to, the following considerations:

- Methods used to derive cost estimates
- Completeness and date of cost estimates
- Relationship between cost and the activities to be undertaken
- Cost per unit, if applicable
- Other items deemed relevant to success of the proposed activities

D. CAPACITY

Project sponsors must demonstrate the ability to carry out the proposed activities. Project sponsors will be evaluated on experience, administrative capacity, and financial management.

Consideration will be given to current providers with exemplary performance records. Exemplary performance is defined as: receiving a high score in performance evaluations conducted by the DPHCD and consistently meeting or exceeding the accomplishment goals established for the CDBG - funded activities.

E. LEVERAGE

Consideration will be given to the amount of non-CDBG funds committed to the project. The greater the financial support or leveraging from local and other sources, the greater the potential impact that CDBG funds will have on meeting local community needs. Documentation must be provided with the application to verify the availability of leverage resources.

F. OTHER APPLICATION FACTORS

Applicants are encouraged to develop a program that has a substantial and comprehensive effect on the needs and conditions identified in their application. These qualities will be carefully evaluated in the review of your application using the evaluation criteria presented on the CDBG Proposal Application Evaluation Worksheet found in these instructions.

It is strongly recommended that you consider these factors before preparing your application, as they are the same factors that will be used to judge the overall feasibility of your proposal.

HEALTH INITIATIVES:

Please note that programs that serve youth, and offer food and beverages to their participants will be required to make best efforts to follow the nutritional guidelines described below and to incorporate some form of physical activity into their program if at all possible.

- Keep beverage choices healthful. Choose low-fat milk (1 cup serving), water, and moderate amounts of 100% fruit juice (the American Academy of Pediatrics recommends no more than a 6 oz. serving of 100% fruit juice **per day**). Flavored low-fat milk or soymilks are good alternatives.
- Avoid soda, sweetened juice drinks, and sports drinks!
- Look for snacks that have at least **2** grams of fiber per serving listed on the nutrition label.
- Choose whole-grain snacks as much as possible. Look for the word **“whole”** as one of the first ingredients on the product label.
- Keep fresh fruits and veggies readily available. Wash and prepare snacks such as carrot and celery sticks ahead of time, then keep in the refrigerator for easy snacking later.
- Choose low-fat dairy products (for children over age 2), like low-fat cheeses, cottage cheese, sour cream, yogurt, and milk.
- Aim for snacks low in fat, sugar and sodium. The Mayo Clinic recommends choosing snacks that have close to 5% of the daily value for fat, sugar, and sodium and not more than 20% (this is listed on the nutrition facts label)-except nuts and nut butters.
- Snacks that include at least **two** of the major food groups are best (carbohydrates, meats/beans/nuts, dairy, fruits and vegetables). For example, an apple with peanut butter or cottage cheese with peaches.
- Make it a good habit for children to rinse their mouth with water after they finish eating snacks. Sugary snack foods that stick in the teeth pose the greatest risk for tooth decay. Modified from Tufts University, Friedman School, Economics, 2004.

The DPHCD Staff and Review Community will utilize the following criteria, in addition to HUD eligibility requirements and the city's Consolidated Plan priorities, in evaluating proposals submitted for CDBG funding:

A. IMPACT ON CONSOLIDATED PLAN PRIORITY NEEDS AND OBJECTIVES

The need for the proposed project will be determined by identifying how the project impacts the Consolidated Plan Priority Needs. Therefore, applications must provide a clear explanation of how the project impacts upon Consolidated Plan Priority Needs. Greater consideration will be given to projects that provide a clear description of the project with supporting data and methodology of how the project will meet the Plan's Priority Needs.

B. PROJECT DESCRIPTION, PERFORMANCE MEASUREMENTS & BUDGET

The content and soundness of the applicant's project design will be evaluated. This evaluation will include a review of proposed project activities set forth in the narrative and the budget to support these activities. - Completeness and timeliness of cost estimates;

Documentation must be provided with the application to verify the availability of leverage resources.

E. FINANCIAL ADMINISTRATION

VI. EVALUATION OF CDBG PROPOSALS

CDBG funds are awarded through a competitive proposal evaluation process. The evaluation considers all aspects of the proposal as described in the RFP and proposal application.

Proposals are reviewed by the staff of the city's DPHCD who first review each application for threshold information [completeness of application] and then for content. DPHCD staff review each proposal, ranking them using the city's DPHCD Proposal Application Evaluation Worksheet. Should a question arise during its review, the DPHCD reserves the right to contact the applicant for clarification. The results of those evaluations are then presented to the Mayor's Review Committee that renders the final decision on grant awards.

While a well-written proposal is no guarantee of funding, this is a highly competitive process where the completeness, conciseness, and responsiveness to the criteria described in the RFP is of the utmost importance.

An CDBG RFP Assistance Workshop will be conducted on **Friday, January 12th at 9am** to assist potential applicants in completing this year's proposal application.

Please contact the DPHCD at 508.979.1500 should you have any questions concerning this process or the application, itself.
